## 3 steps to long-lasting fresh breath

- Recommended by your practice
- Professional at-home approach
- For a healthy mouth

**Fresh 4Sure**  
3-step oral care

# Cavex Fresh4Sure is a unique 3-step mouth care system

Fresh4Sure helps to restore the balance between 'good' and 'bad' bacteria in a natural way. This is a professional system, which can be used at home to achieve a healthy mouth and lasting fresh breath. It also helps to prevent mouth dryness.

## Step 1 Removal

Most of the bacteria which cause bad breath are usually present on the tongue. This can be cleaned frequently Using **Fresh4Sure Tongue Cleaner**, which will remove the coating in which the bacteria live.

## Step 2 Cleaning

These bacteria are reduced even further by rinsing for 30 seconds with **Fresh4Sure Mouthwash**.

## Step 3 Conditioning

**Fresh4Sure Tongue Gel** is applied using the tongue scraper to inhibit the growth of 'bad' bacteria.
